

**Please Add Your Name to the Climate Declaration!
Show Your Care! Business Leadership is Key.**

Did you know that Door County businesses are leading Wisconsin in the critical effort to combat the climate crisis?

To date, more than 120 Door County businesses have demonstrated their leadership and foresight by signing the International Ceres Climate Declaration. By doing so, they have acknowledged the reality of climate change, the central role of fossil fuels as the largest contributor, and our collective responsibility to future generations to take action now.

These local companies stand alongside more than 1,500 other businesses around the country, many of them multinational enterprises, that have signed the Ceres Declaration.

Check out the enclosed Declaration poster to see who has already signed!

Americans make up only 5% of the world's population, but are responsible for 25% of the emissions causing global warming. We have an obligation to lead. Won't you add your signature and your support to this important effort?
